

**SCADA Electrician**State  
water

State Water is an innovative, medium-sized water corporation that services regional NSW from 42 locations throughout the state. We are currently looking for an enthusiastic SCADA Electrician based in the Southern area of NSW, to be negotiated.

**About the position ...**

This is a fantastic opportunity to join a dynamic and dedicated team. You will implement, configure, maintain and service field based SCADA and automated systems on a daily basis, including computer hardware, communications networks, site controlling devices and instrumentation to achieve availability requirements of the SCADA system for users. You will also identify and resolve electrical and automated system faults to minimise downtime for the SCADA system and associated assets.

**About you ...**

You will possess a qualified supervisors certificate – electrical; have proven ability to undertake field operations and maintenance activities involving SCADA equipment and associated electrical and mechanical equipment; demonstrated SCADA systems knowledge; expertise in maintaining and programming PLC; proven ability to manage small projects and well developed analytical and problem solving skills.

**Remuneration & benefits ...**

For the right person State Water can offer a great career development and the opportunity to develop broader skills in this critical industry. An attractive salary of between \$55,220 and \$74,810 also applies.

**Applications including current resume to:**
