

SUPPLEMENTARY ACCESS ANNOUNCEMENT FOR LOWER NAMOI RIVER

(Peel River Junction to Gunidgera Weir including Gunidgera/Pian Creek)

05 January 2010

Due to increased rainfall the following Supplementary announcements are available.

- B Class supplementary water access licenses located between the Peel River Junction and Gunidgera Weir may extract water up to 82% of their supplementary entitlement over **5 days starting from 10:30am 2/1/10. This is an increase of 10%.**
- B Class supplementary on Gunidgera/Pian Creek may extract water up to 82% their supplementary entitlement over **7 days. This is an increase of 10%.**

Customers are reminded that:

- 1) You are required to contact the river operations officer to confirm start times.
- 2) Your supplementary access limit is equal to your supplementary access licence unit shares.
- 3) Your supplementary water access licence must be current and linked to a licensed work located in a section mentioned above.
- 4) Your supplementary water account balance must be in credit.
- 5) Your extractions must not exceed your supplementary water account balance or the announcement quota.
- 6) Over pumping will result in the usage being debited to other accounts.
- 7) Customers must provide meter readings at the start and end of pumping, failure to supply meter readings will result in usage being debited against regulated water supply access licences.
